

X-WING WING MARKINGS TEMPLATES

(printing on card stock is recommended)

Cut out the gray areas only.

Cut out the numbered areas (1-6) as needed for the appropriate markings for your X-Wing. For example, cut out areas 1-5 (leave #6 intact) to create the markings for Luke Skywalker's "Red Five" X-Wing fighter.

Cut out the templates along the outer edge.

Overlay the templates onto the wings, lining up the black lines with the grooves in the wings. Use a pencil to lightly trace the templates onto the wings.

Remove the templates, mask with tape, and paint the markings.
